29th March 2009

Dear Mr Asselstine

We write to commend and "Thank you" and your crew on the excellent work carried out at the above address. It is hard to find a company that keeps to its word implicitly.

The schedule, time keeping, work ethics, expertise, quality, effort, and clean up made for an impeccably completed project, which was second to none.

We have no hesitation in recommending you and your company to any interested future customer. In fact we would be very pleased to impart our views.

Thank you again for making this a completely stress free experience and enhancing the look of our home.

'Good Luck' for the coming season and future.
